

Datasheet for Earth Leakage Monitoring

IsoOut

Relay output for IsoBase 96 and IsoBox 16/96

IsoOut

for earth leakage systems monitoring
up to 128 channels

Article number: 670426
Aux supply: 12/24 VDC
Outputs: 16, max 1A
Dimensions: W x H x D 135 x 92 x 25 mm
Weight: 0,25 kg

Recommended cable FKAR-PG 2x2x0,5 mm²
Delivered with connection plints
Depth including plints is 42 mm

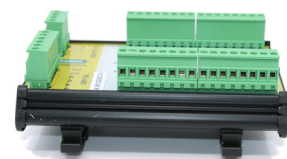

Application

IsoOut gives individual warning and alarm for each group. Every IsoOut has 16 relay outputs.

IsoOut can be connected to an alarm panel. Group alarms for one room with multiple feeders can be created. IsoOut always work in a group with an IsoHub unit.

IsoOut is for DIN-rail mounting.

See user manual for IsoBase and our application guide for Hospital installations.
