Earth Fault Monitoring **Iso4-DIN**

- 4 channel supervision
- 3 modules DIN mounting
- LCD display 10mA - 10A Trms
Green display = OK
Yellow display = Warning
Red display = Alarm
Blue display = Setting mode
- Output for Alarm
- Modbus RTU as standard
- User friendly menu
- Programmable filter function

Iso4-DIN is a user friendly earth fault monitoring instrument for up to 4 channel supervision, DIN mounting and 3 modules width. It has a backlit LCD display in 4 colours.

Modbus RTU RS485 interface communication is standard.

The instrument has programmable warning and alarm levels and visualization of the differential current and the instrument's status.

Used together with our current transformers GB-type

Technical data

Power supply:	230 VAC +/- 20% 115VAC +/- 20% optional
Frequency:	50 - 60Hz
Power consumption:	6VA max
Alarm levels:	From 30 mA
RS485 serial interface:	4800 - 115200 bps
Dimensions:	W x H x D 52,5 x 90 x 60
Weight:	200 g
